

Graduate Certificate of Aeromedical Retrieval

CDU Menzies School of Medicine

ABOUT THE COURSE

The Graduate Certificate of Aeromedical Retrieval is an innovative course that will extend knowledge gained through your health studies and develop foundational research skills and a complex understanding of aeromedical retrieval.

Relevant to doctors, nurses, midwives, paramedics and other health professionals who wish to undertake postgraduate education in the area of aeromedical retrieval.

You can choose to study on campus (internal) or online (external).

This flexible course addresses:

- > delivery processes,
- > critical reflection on aeromedical retrieval practice, and
- > the effects of policy and politics on health care provision, access and individual agency.

This course will expand on your current or recent experience within the health service, and you will undertake education and assessments that have a direct application to your current or future professional practice and context.

On completion of the Graduate Certificate of Aeromedical Retrieval, you may progress to the Master of Aeromedical Retrieval, with advanced standing of completed studies.

DURATION

6 months full-time
 1 year part-time

ADMISSION INTAKE

Domestic Semester 1
 International Semester 1

Course developed by CDU*
 in conjunction with National
 Critical Care and Trauma
 Response Centre.

*CDU Menzies School of Medicine

**NATIONAL CRITICAL
 CARE AND TRAUMA
 RESPONSE CENTRE**

CAREER OPPORTUNITIES

This course will enhance and develop the knowledge and skills for roles which manage the emergency transport of patients by aeromedical retrieval. Graduates of this course have the opportunity to critically analyse and reflect upon the aeromedical retrieval journey.

The graduate certificate examines the fundamentals and principles of aeromedical retrieval as well as the logistic components from the domestic to international level.

Completion of this course positions graduates in a stronger position to undertake senior clinical and administrative roles within their organisation.

ADMISSION CRITERIA

Australian citizens and permanent residents must demonstrate current registration with the Australian Health Practitioner Regulation Agency (AHPRA).

International applicants must demonstrate current registration/affiliation/license with the relevant nursing/medical body in their country of origin.

It is expected applicants have recent work experience in a health setting.

COURSE STRUCTURE

This 40-credit point course consists of two core units and two specialist elective units.
